Regarding a number of matters of concern raised by R. Gilman, at the January 19th meeting it was the consensus of the board that they approach one matter at a time and the "commercial" uses on Rt. 175 would be an appropriate starting point.

Toward that end B. Regan submitted a sample "inventory" and draft correspondence to the BOS for the board's review and comment.

M. Johnston identified herself as a member of the Plymouth Regional High School Building Committee. Her expressed purpose was to present the board with an overview of the details of a proposed Bond issuance for renovations to the Career and Technical Center (CTC) at the school building. This matter is on the Town ballot for vote March 14th.

She noted of the 680 students at PRHS 250 participate in the CTC and she advised that the CTC has not been renovated or expanded in more than 30 years and also that the state funding for such projects is rarely available.

M. Johnston presented the Board with copies of a printed brochure showing graphics and written details of the renovation areas and describing the upgrades to be made under the grant. The funding breakdown of the project was set forth in the brochure as follows:

She described the proposed financials as follows:

State Funding (75%) = \$5.3 Million

Local Contribution (25%) = \$3.1 Million

As a further point in her presentation it was made clear that the impact to Thornton as a contributor to the local portion would amount to \$0.16/1,000.00 over a ten year period.

The board expressed its interest in the project and noted that spreading the word would be beneficial to other citizens of town as they consider voting on the matter.
