Approved Zoning Compliance Permits are valid for 2 years from the date of approval & shall be posted in a conspicuous place on the property during the construction of the project. An extension for 2 years may be requested by the applicant prior to the expiration of the original permit. See Rules on page 3.

ZONING COMPLIANCE APPLICATION RULES, REGULATIONS & INSTRUCTIONS

The Town of Thornton requires a Zoning Compliance Application (ZCA) form for assessing purposes and does not require Town building inspections. The purpose of a ZCA is to help ensure zoning compliance as directed in the Zoning Ordinance, ensure construction complies with applicable local, state and federal laws and codes, helps protect property values town-wide and ensures that assessments represent "fair and equitable taxation."

A ZCA Form is required for any construction, demolition, relocation or change of use and shall be reviewed and approved by the Thornton Board of Selectmen. Fees for applications are based on the Current Fee Schedule. Applications for Commercial Development, Multi-family Dwellings and Home Occupations shall be reviewed and approved by the Thornton Planning Board prior to an application for construction being submitted to the Board of Selectmen, as required by Regulations and the Zoning Ordinance. Approved Zoning Compliance Permits are valid for 2 years from the date of approval & shall be posted in a conspicuous place on the property during the construction of the project. Permit Extensions may be applied for an additional 2 years beyond the expiration of the original permit, provided the extension is applied for before the original permit expires. Any extension necessary beyond the 4-year date shall require a new ZCA, including submission of all documentation and fees normally required for a new application.

An **Application for Floodplain Development Permit** is required in addition to a ZCA Form for all development located in a flood zone. This permit is acquired from the Thornton Planning Board

An **Application for an Accessory Dwelling** is required in addition to a ZCA for proposed construction/alterations that include an accessory apartment.

Fire Suppression or Sprinkler systems may have been required based on previous subdivision plans, deeded covenances or restrictions on the property.

A **Driveway Permit** must be issued by the Town of Thornton Road Agent prior to driveway construction for any property located on a Town Road. Please contact the Road Agent for applications. Any driveway on a State road or highway must have a permit from the State of NH prior to driveway construction. Other work adjacent to a road shall not interfere with or alter the course of roadway drainage and shall not cause runoff to be diverted onto a traveled way.

INSTRUCTIONS

Complete owner(s) name, address and telephone number, (including out of town address and phone number(s) if applicable). If an agent of the owner (contractor, builder, etc.) submits the application, their name, address and telephone number must be provided.

Application must be filled out in its entirety including tax map number, location and proper zone. If an item is not applicable, please indicate with "N/A." **All owners shall sign the application in all areas required.**

All required Federal, State and Town approvals must be presented with the application before application will be considered for approval by the Board of Selectmen. **The following items are required to be included with this application when applicable.**

- _____ Septic plans and construction permit copy from the NH Department of Environmental Services, Subsurface Systems Bureau (www.des.nh.gov/organization/divisions/water/ssb)
- _____ Signed ADDENDUM for NH Septic Installer, NH Electrician and NH Plumber if applicable
- _____ Driveway Permit from Town or State (Thornton Road Agent or www.nh.gov/dot/org/operations/highwaymaintenance)
- _____ State Energy Code Regulations compliance certificate for dwellings (www.puc.state.nh.us/EnergyCodes)
- _____ A set of building plans or sketch that show overall dimensions, elevations, number of stories, square footage & floor plans
- _____ Home Occupation, Multi-family dwellings, Commercial Development approval or other Planning Board approval/permit
- _____ Accessory Dwelling Application or Permit from the Board of Selectmen
- _____ Fire Suppression or Sprinkler plans if applicable
- _____ Floodplain Development Permit from the Planning Board
- _____ Shoreland Protection Permit from NH Dept. of Environmental Services (www.des.nh.gov/organization/divisions/water/wetlands)
- _____ US Environmental Protection Agency National Pollutant Discharge Elimination involving Stormwater (NPDES) permit is required for the disruption of one (1) acre or more. (www.epa.gov@NPDES/stormwater)
- _____ Plot plan or sketch shall be neatly drawn and include the following information:
 - Boundaries of lot with dimensions in feet and lot area in acres
 - Setback distances to property lines
 - Current tax map location
 - Names & locations of roads adjacent to lot
 - Existing structures on lot: include well/water source, septic system/leach field, drainage/culverts/ditches, parking facilities, structures, and utilities
 - Any additional information that will adequately describe the proposed work

I have read, understand and will comply with the above stated Rules & Regulations.
